

December 23, 2016

Dear valued customer,

As of December 22, 2016, ENMET LLC will be the sole service provider and manufacturer of the HAZMATCAD and CW Sentry product lines of chemical agent detectors. We hope to continue to provide you with the same quality instrumentation, service and parts at a new and more reasonable price.

Additionally we will continue to provide service and parts for MSA Safesite products. This is scheduled to continue until 2018 or until parts become unavailable.

Those customers who have an existing MSA service contract with their HAZMATCAD or SAFESITE units will still be provided service until such time as their contracts expire. ENMET will be willing to continuing offer extended warranty and service contracts on these products at that time.

We are looking forward to continuing our commitment to your organization with quality creative gas detection solutions.

If you have any questions, please feel to contact us at any time.
